

FAL Aviation

FAL Aviation is a fixed based operation (FBO) operating from London Ashford Airport. As a business FAL are 100 per cent focused on the needs of the executive aviation industry, and in providing a fast, efficient and cost effective executive airport gateway.

Open seven days a week from 9am-7pm (all hours are based on local time) but with a 24/7 operational capability subject to prior permission requests, FAL Aviation represents a real alternative to the increasingly restrictive London and City airport options. With no runway slot restrictions including weekends at the airport, and being outside the London TMA and with our own ATC, many of the increasing airport operational difficulties suffered by our competitors simply do not exist at FAL.

Officially launched in July of 2005, FAL Aviation and its brand new modern facilities, boasts an impressive range of exclusive services for passengers and crew of Corporate Aviation combining a friendly, efficient and welcoming attitude for all our customers.

Over £500,000 has been spent creating a suite of lounges, rest rooms, conference facilities and rest areas to ensure that all our corporate aviation clients enjoy the best of business and relaxation environments.

Tasteful décor and superb furnishings has resulted in what we believe to be one of the finest facilities of its kind anywhere in Europe. Every detail has been meticulously thought about in creating an FBO to be proud of.

At FAL we understand the importance of dedicated rest areas, refreshments, exceptional handling and onward journey planning for pilots and crew. A locker room, shower block and separate crew lounge are just part of our offering to ensure that even the shortest of visits goes as smoothly as possible.

With no hold patterns in our airspace, no long taxiways from the runway and no ATC restrictions, you are guaranteed the fastest possible handling standards. Dedicated marshalling, preferential re-fuelling and swift passenger and crew transfer from our brand new self maneuvering stands ensures a seamless program for you and your clients.

With fantastic accessibility to the Battersea heli-port with our preferred heli-charter partner AV8 Helicopters, that important London business meeting is just some 30 minutes away, very comparable to other FBO's serving the capital, and at FAL we don't suffer some of the other operational delays that they might. For shorter journeys our full range of chauffeur driven services in a range of executive cars and vehicles, provides you with exceptional standards of quality, comfort, discretion and security.
